Envelope folding instructions

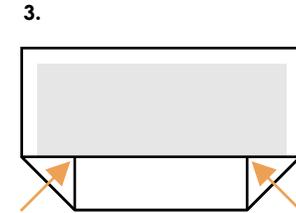

Let them know you care (and show how talented you are) by folding your certificate into an envelope.

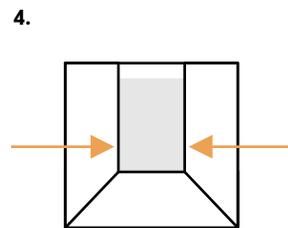

Lay down print
Place printed side face-up with the bottom toward you

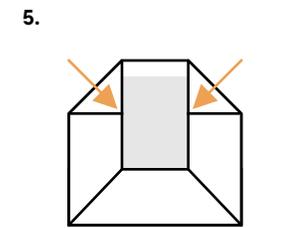

Fold 1/4 of the page up from the bottom
Bottom edge should meet the center of the page

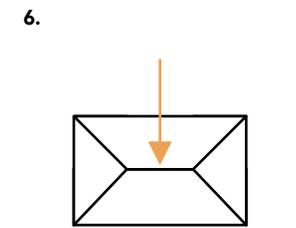

Fold in each bottom corner
Outer edges align with the center of the page and are now perpendicular to the bottom

Fold both sides inward
Use the vertical edges of the upturned corners as a guide
The tops of these flaps line up with the top of the page

Fold top two corners down and inward
Use the vertical edges of the folded-in sides as a guide

Fold upper flap down
Upper segment folds along the bottom of top folded corners
