LYFE COLLECTION

Simple How-To Guide To Calculate Your Life Path number from our LYFE collection:

1. Begin with your full birth date. Example: DECEMBER 19, 2009

2. Reduce the month, day and year down to a single digit by adding them:

MONTH: December is the 12th month - Add 1 + 2 = 3

DAY: The day of birth is 19 - Add 1 + 9 = 10.

Keep adding to digit down to a one-digit number: 1 + 0 = 1

YEAR: The year of birth is 2009 - Add all four numbers together: 2 + 0 + 0 + 9 = 11.
Continue adding until you get a one-digit number: 1 + 1 = 2

3. Now add the resulting single digits together to get the Life Path Number. Month=3 + Day=1 + Year= 2 3 + 1 + 2 = 6

The Life Path number is 6.
