

Valentine's Day Fortune Cookies

Give your Valentine something sweet!

STEP 1

Cut out the cookie shapes and fortune strips that you can tuck inside the finished cookies.

STEP 2

Fold the circle in half but DO NOT crease the cookie.

STEP 3

While holding the folded cookie, put your thumb on one end of the cookie and your middle finger on the other end. Use your forefinger to gently press the middle of the cookie inward and let one side of the cookie roll under the other side. Keep pressing until the two ends meet and you have made the fortune cookie shape.

STEP 4

Unfold the fortune cookie just enough to slip your fortune inside. Re-fold and place a small dot of glue to hold the ends together if needed.
